Welcome to my simple philosophy journal.

Over the years i've taken on all sorts of projects.  
I've spent years studying people, religions, philosophy, music, etc...  
I've learned a little bit about a lot of things.  
The more i learn, the more i learn how little i know.

Somewhere along my way,  
i decided i wanted to contribute something positive to the world.  
I wanted to try to leave Earth a smidgen better then how i found it.

In the early 1990s, i started studying life.  
In other words, instead of just being here,  
I wanted to understand why I'm here and who am i?

As i digested more and more,  
ideas would blossom out of my unconscious.  
So i started keeping a simple journal of these ideas.  
I wanted to express these ideas,  
but didn't want to write too many words.  
I felt and still feel that in modern days we are too busy  
to devote too much time studying the volumes of information on many topics.  
I wanted to write ideas that are short and to the point.  
Ideas that hopefully sparked thought.

I'm a left and right handed person.  
I'm a creative and analytical person,

This is a collection of ideas  
that have blossomed out of my unconscious.

Ideas surface from the unconscious into our consciousness,  
like a submarine surfaces on the ocean.

The order I have these thoughts laid out is that the newest ideas are first  
and as you read further they go back to 1994.

Oftentimes my thoughts might be related to what's going on in the world,  
at that particular time.

Because i was born American, i also tend to have ideas  
about what's happening in the American culture  
and ideas about how the American culture affects the rest of the world.

Some thoughts are related to eternal ideas  
that are not confined to a particular time or culture.

i'm offering these ideas to the world,  
hoping that somehow they can contribute to making our planet a better place.  
i don't claim to live by these philosophies, i claim to be a student of them  
and trying to implement them into my life.

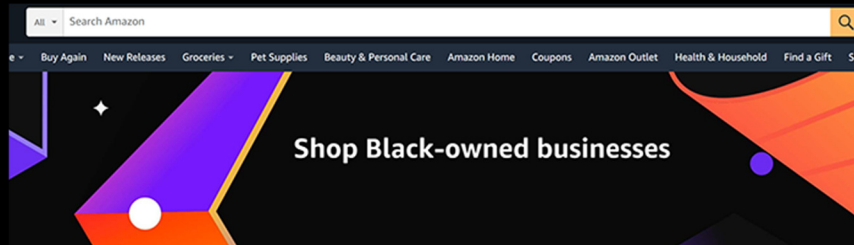

with much brotherly love,

X

(This PDF is currently being put together. I have 30 years of simple ideas to pile in, it'll take some time.)

If it is racist and wrong to give preferences  
to "white" businesses,  
i.e. "Shop White-owned businesses",  
then it is racist and wrong to give preferences  
to "Black" owned businesses.

It doesn't matter what race,  
if the preference is based on race it's racist.

Here is a 60 year-old idea,

"I have a dream that my four little children will one day live  
in a nation where they will not be judged by the color of their skin  
but by their character."

Amazon,  
why are you promoting just the opposite?  
Do you not believe in Martin's dream?

Any business, organization or individual  
who promotes preference based on race,  
is holding back Martin's dream from fruition.

It's a lost culture when they don't know a man from a woman.  
The differences between and the union of,  
is a natural and holy thing.  
So natural and holy that the actual physical union of  
a man and a woman creates life, naturally.

In awe, is all i can be.

i know this is sexist to say, but the truth is the truth...

Women on average, are better human beings than men.

To me,  
this is another piece of evidence  
that there are true differences between men and women.

There are pros and cons to both genders.  
The wise couple recognizes this and takes advantage  
of the strengths of each gender and work out how to handle the weaknesses.  
If they do this,  
there is a more complete wholeness developed in both individuals  
and a stronger foundation of marriage blossoms.

I've been amazed  
that the argument of climate change  
has centered around what causes it  
and not the fact that it's happening.

If it's man made, regulate it.  
If it's naturally made, deal with it.

We don't sit in the snow and get frostbite,  
we build homes and keep them warm.  
We adjust nature for our well-being.

If companies are damaging our common environment,  
then stop them.  
Don't just charge them fees ("fines")  
to damage the environment,  
put them out of business,  
so another business can step in and do it right.

"Record number of people worldwide

i'd say something, but it's already been said.

"Every gun that is made, every warship launched,  
every rocket fired signifies in the final sense,  
a theft from those who hunger and are not fed,  
those who are cold and are not clothed.

This world in arms is not spending money alone.  
It is spending the sweat of its laborers,  
the genius of its scientists, the hopes of its children.  
This is not a way of life at all in any true sense.  
Under the clouds of war,  
it is humanity hanging on a cross of iron."

In the American culture,  
if it weren't for the existence of anti-depressants,  
there would be many many more alcoholics and drug addicts.

Depression is a symptom of a depressing place.  
An anti-depressant is a bandaid on a broken arm.  
Eventually we have to deal with problems of our reality  
that are stacking up as we sit comfortably numb.

In the news,

"In Buffalo,  
the president was confronting anew the forces of hatred  
he frequently says called him back to seek the White House.

"Jill and I have come to stand with you,  
and to the families, we have come to grieve with you,"  
Biden said.  
He added:

"Now's the time for people of all races,  
from every background,  
to speak up as a majority and American  
and reject white supremacy."

Replacement theory is a racist ideology,  
which has moved from white nationalist circles to mainstream,  
that alleges white people and their influence  
are being intentionally "replaced" by people of color.""

They call it a theory, but just 4 months ago  
i posted an example of just this type of replacement  
by Joe Biden (scroll down further to read it).  
Biden's words in January were not a theory,  
they are quoted right out of his mouth.

He said that he would replace the supreme court seat  
with a woman who is black.

Woman and black are the base qualifications for the seat to be filled.  
If you are a judge of any other race or gender,

you are immediately disqualified based on your race and/or gender,  
not on your legal knowledge and expertise.

This action is racist. Joe Biden is a racist.

I'll repeat what i said on 11AUG2020,  
"racism produces more racists".

Joe Biden's racists ways are producing more racists.

Guns don't shoot people, people shoot people.  
If you put a loaded hand gun on a table,  
it will never point itself at somebody and pull the trigger.  
It takes a finger.

The problem isn't the gun, knife, crowbar, poison, fist, etc.....  
it's that someone chose to murder.

Where there is a will, there is a way.  
If someone's will is to murder they will find a way.

The links i provide are simply instant searches at Google of these types of murder.

If you want to ban something to stop murder,  
you need to ban humans.

"a presidential campaign promise,  
President Joe Biden pledged to nominate  
a Black woman to the Supreme Court"

By definition, Joe Biden is a racist and sexist.

The worst part about this is the fact that  
the supreme court and legal scholars all over the country  
are silent on this obvious racism.  
These law educated leaders should be aware of  
the power and potential danger of a precedent  
and the simple fact that racism is wrong.

The death of

[Adam Toledo](#)

is tragic.

After seeing the video,  
i have no problem with the way the officer handled the situation.

Adam had a weapon and was resisting arrest.  
In a dangerous environment,  
the officer had a split second to figure out how to handle the situation.  
Sure, there might have been 1 second  
when Adam didn't have the gun in his hand,  
but that's simply 1 second.

What person roaming the streets at night with a handgun  
and resisting arrest is up to doing good?  
According to the evidence,  
Adam and Ruben had apparently already shot at a passing vehicle.

Why isn't anybody asking why a 13 year old  
is roaming the streets at night with a handgun?  
I haven't seen one person ask this obvious question.

Instead, people watch a video clip and declare the officer a murderer.  
The officer didn't have the option to check a replay from the comfort of his home.  
He had to make a difficult life and death decision in bad lighting  
and in a split decision or his family may never see him again.  
How well can you make that choice?  
Put yourself in his shoes before you offer your opinion.  
It takes brave heros to protect our community from people with guns,  
doing suspicious things at night.

Why did Adam put everybody in this situation?  
When are we going to finally start judging people by the content of their character  
and not the shade of their brown?  
Adam wasn't at choir practice,  
he was a suspect fleeing the scene of a shooting.

I said it before and will say it until i don't have to,  
If people didn't commit crimes and resist arrest,  
90% of the cases people are protesting wouldn't exist.

Emasculation can harm and destroy a culture.

"Racism plain and simple"  
("New York City Mayor called it")

She wrongly thought somebody stole her phone.  
Anybody can make that mistake, she owes this kid an apology.  
Maybe it's a crime to try to wrestle your seemingly stolen property back,  
if so bust her for that.

There isn't a single piece of evidence in this story  
pointing to her motivation being based on race.  
She is assumed to be racist because of her race.  
The only victim of racism in this story is clearly her.
